PROFESSIONAL SUMMARY

Results-driven Software Developer with 3+ years of experience in building scalable full-stack applications. Expertise in React, Node.js, Next.js, Python, and AI integrations (Google Gemini). Demonstrated ability to lead front-end development, integrate third-party APIs, and ship production-ready SaaS and AI-based video generation platforms.

EXPERIENCE

Software Developer — Oct 2024 - Present
AiReel.io — *Remote*

- Developed AI Reel Generator platform enabling users to select avatars, generate scripts via AI, pick background music, and create shareable reels and UGC ads.
- Built core modules: avatar selection, script generation, music picker, video rendering.
- Integrated Firebase Authentication, Stripe payments, and React + Redux frontend architecture.

Frontend Developer — Sep 2023- Oct 2024
Personate.ai — *Remote*

- Co-developed studio.personate, a full-stack SaaS AI video editor using Next.js.
- Collaborated on architecture, component structure, and frontend optimizations.
- Utilized Next.js for efficient development and scalability.

Software Development Trainee — Oct 2022- Aug 2023
Masai School — *Bangalore*

- Completed intensive full-stack development training.
- Delivered multiple real-world team projects using Agile methodology.

SKILLS

Frontend	React, Redux, Next.js, HTML, CSS, JavaScript, TypeScript, TailwindCSS, Bootstrap
Backend & Database	Node.js, Express, MongoDB, Firebase, Python, REST APIs
AI/ML Integration	Google Gemini API, AI prompt processing, automated media generation
Tools & Plateforms	Git, GitHub, Vercel, Stripe, Firebase Authentication

EDUCATION

Master of Computer Application-Distance Learning, Purvanchal University — Expected 2026

Bachelor of Computer Science-Mathematics, Purvanchal University — 2019 - 2022

PROJECTS

AiReel.io – AI Reel Generator - [link](#)

- End-to-end AI video generation platform with avatar, script, music, and rendering workflows.
- Used Firebase, Stripe, React, Redux, and TailwindCSS for scalable and secure delivery.
- Designed a scalable architecture using React + Redux on frontend.

Studio.Personate – SaaS Video Creation App - [link](#)

- SaaS platform to generate custom AI videos with professional UI/UX.
- Built reusable components and managed state using Next.js.
